Professional Summary –

Full-Stack Web Developer with hands-on experience in building scalable, interactive, and data-driven web applications. Proficient in JavaScript, React, Node.js, Express, and MongoDB, I craft efficient, user-focused solutions and excel at transforming real-world challenges into innovative software projects.

Projects –

1. Events & Activities Platform Live Link | Client Side | Server Side

A full-stack social platform designed to connect users through shared interests, events, and community activities. The system enables users to discover events, join communities, create activities, and engage seamlessly through a secure, role-based dashboard.

- Users can create, browse, and join events based on interests
- Role-based dashboards for Users, Hosts, and Admins.

Technologies: Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

2. Ride Booking Platform Live Link | Client Side | Server Side

A scalable, role-based ride-booking system with separate dashboards for Riders, Drivers, and Admins. Led both frontend and backend development to deliver a robust platform with secure authentication, and responsive design.

- Developed role-based access control for Rider, Driver, and Admin.
- Enabled ride request, booking, acceptance, status updates
- Built admin dashboard for user & ride management and analytics

Technologies: Redux Toolkit, Tailwind CSS, Express.js, Node.js, MongoDB, Mongoose, JWT, REST API

3. Scholarship Live Link | Client Side | Server Side

A full-stack scholarship management solution designed to automate scholarship application and evaluation processes. Played a key role in developing secure backend services and optimizing database operations.

.

- Enabled dynamic scholarship search, filtering, and category-based browsing.
- Managed complete student application lifecycle: Submit, Review, Approve, Reject

Technologies: Redux Toolkit, Tailwind CSS, Express.js, Node.js, MongoDB, Mongoose, JWT, REST API

Technical Skills

- **Frontend:** React.js, Next.js
- **Backend:** Node.js, Express.js
- **Databases**: MongoDB, PostgreSQL, Prisma, Mongoose
- **Tools:** Git & GitHub, Postman

Education –

Mawlana Bhashani Science and Technology University Tangail, Dhaka • 2022–2026

B.Sc. in Computer Science and Engineering

Language –

Bangla – Native | English – Fluent

Certifications –

Next Level Web Development (PHL2B5WEB10-21561183) 2026

Programming Hero, Banani, Dhaka, Bangladesh || Certificate

Complete Web Development Course 2025

Programming Hero, Banani, Dhaka, Bangladesh || Certificate
